## EDUCATIONS

**Jalpaiguri Government Engineering College** | Jalpaiguri, West Bengal 2025 - 2028  
*Bachelors in Computer Science & Engineering(Lateral)* CGPA : 9.67/10

• Relevant Coursework : OOPs, Analysis of algorithms, DSA, Computer Architecture etc.

**Raghunathpur Govt. Polytechnic** | Purulia, West Bengal Nov 2022 - Jun 2025  
*Diploma in Computer Science & Technology* CGPA : 9.72/10

• Relevant Coursework: DSA, OS, DBMS, Computer Networks

## WORK EXPERIENCES

**Technical Support Intern** | Internship Sep 2024 - Oct 2024  
*Dreamz Industries Pvt. Ltd.* On-site •

- Diagnosed and resolved hardware/software issues.
- Assisted in OS installation, system maintenance, and troubleshooting.

**Technologies / Skills Used** : Kali, Windows Xp

**Web Development Intern** | Internship Nov 2023 - Dec 2023  
*Ardent Computech Pvt. Ltd.* Remote •

- Developed an **'Online Book Store' Website** using **PHP and MySQL** that handled **1000+ users**.
- Gained fundamental knowledge of web technologies.

**Technologies / Skills Used** : PHP, MySQL

## PROJECTS

**Expense-Companion** | 📄 Github 🔗 Demo  
*Individual Project*

Here you go — 4 bullets, factual and grounded in the code:

### Expense Companion

- A personal finance tracker for logging income and expenses, with custom and default categories, built using **React, TypeScript, Vite, Tailwind CSS**, and **Supabase** (Postgres + Auth)
- Includes a **dashboard with data visualizations** (category breakdown, monthly trends, balance trends) and a **searchable/filterable transaction table** with date-range filtering
- Supports **exporting financial reports** as CSV and print-ready PDF-style summaries
- Implements **Postgres Row-Level Security** using **SECURITY DEFINER** helper functions for clean per-user data access control, plus an auto-provisioning trigger that creates a user profile on signup

**Technologies / Tools Used** : superbase, Vercel, React, Express, Tailwind CSS

**Password-Strength-Checker** | 📄 Github 🔗 Demo  
*Individual project*

- Built a client-side password strength analyzer using **React, TypeScript, Tailwind CSS**, evaluating passwords against 5 criteria (length, uppercase, lowercase, numbers, special characters)
- Implemented a **brute-force "time to crack" estimator**, calculating charset size dynamically and modeling crack time at 10B guesses/sec
- Fully client-side with **zero network calls** — passwords are never transmitted or stored, ensuring complete privacy by design

**Technologies / Tools Used** : Tailwind CSS, Node.js, Vite, Radix UI

**MediExplain AI** | 📄 Github 🌐 Website  
*Independent Project*

- Built a full-stack medical document explainer using **TanStack Start (React + SSR), TypeScript, Tailwind CSS**, and **Supabase**, supporting **2 document types** (reports & prescriptions) across **image and PDF** uploads
- Implemented AI-powered OCR and plain-language explanation via the OpenRouter API, integrating **2 models (Gemini 2.5 Flash and Claude Sonnet)** routed by task for cost and quality tradeoffs
- Designed a **Postgres schema with 6+ Row-Level Security policies** across 2 core tables, ensuring strict per-user data isolation and a private, per-user scoped storage bucket
- Built an AI medicine lookup feature backed by a **shared server-side cache table**, eliminating repeat AI calls for previously searched medicines

**Technologies / Tools Used** : React, Tailwind CSS, Superbase, OpenRouter, TenStack Start

## SKILLS

|                                     |                                                                    |
|-------------------------------------|--------------------------------------------------------------------|
| <b>Databases :</b>                  | MySQL, PostgreSQL, Supabase                                        |
| <b>Frameworks &amp; Libraries :</b> | Node.js, React, Tailwind CSS                                       |
| <b>Languages :</b>                  | English, Hindi, Bengali                                            |
| <b>Programming Languages :</b>      | C++, Python, Java, JavaScript                                      |
| <b>Soft Skills :</b>                | Problem Solving, Team Collaboration, Adaptability, Time Management |
| <b>Tools &amp; Platforms :</b>      | Git, Github, Xampp, Vercel, Superbase, Linux                       |
